The Annual Report of the Medical Officers of Health for the Year ended
31st December, 1944.

===oOo===

To the Chairman and Councillors of
the Nidderdale Rural District Council.

My Lord, Lady and Gentlemen,

We have pleasure in submitting for your
consideration our Annual Report for the year 1944.

The Ministry of Health ask only for a short
interim report as in the previous four years, reserving statistics
of sanitary matters until a later date.

Your obedient Servants,

J.M. BENSON.

1. The first part of the document is a letter from the President of the United States to the Congress, dated January 3, 1862. It is a long and detailed letter, covering many topics, including the state of the Union, the progress of the war, and the administration of the government. It is a very important document, as it provides a comprehensive overview of the country's situation at the time.

SANITARY CONDITIONS OF THE AREA.

WESTERN DIVISION.

Water Supply.

There has been no extension of supply of water during the year. The supply has been satisfactory in quality and quantity.

Cowsheds and Dairies.

The cowsheds and dairies have been inspected as frequently as possible during the year. The majority of the buildings are good and methods of milk production tend to improve. There has been no instance of disease attributed to milk during the year.

Drainage and Sewerage.

There has been no extensions of sewers during the year. Sewering is required in Arkendale, Brearton, Burton Leonard, Concythorpe, Kettlesing, Scotton and Stainley. Extension of sewage disposal works were made at Concythorpe and Hamps-thwaite.

Public Cleansing.

Scavenging is in operation in six Parishes, and it is necessary in the remaining Parishes.

Tents, Vans, Sheds etc.

There are fifteen of these on the register and they are in a satisfactory condition.

EASTERN DIVISION.

Water Supply.

Nearly the whole Eastern Division has a supply of water from the borcholes at Marton-cum-Grafton. This is satisfactory in quality and quantity. An extension of the supply to the remaining Parishes is very necessary and a scheme is contemplated to meet this need.

Cowsheds and Dairies.

The condition of the cowsheds on the whole is very satisfactory but that of a small number leaves much to be desired.

Drainage and Sewerage.

There has been no extension of drainage or sewerage during the year, but this is very much needed in numerous Parishes.

Public Cleansing.

Complete scavenging is carried out in Boroughbridge and Roccliffe. Monthly collections are made of Salvage in the other Parishes.
